MONO MATERIAL
Breastmilk Storage Bag

Small changes make a big difference

One material.
One simple choice.

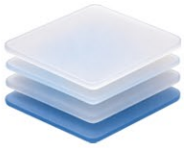
Our recyclable breastmilk storage bags keep your baby safe and the planet in mind — reliable today, sustainable tomorrow.

Fully Recyclable
Mono Material

Food Safe
BPA Free Materials

Maximum Protection
Locks in Freshness and Flavor

What is MONO Material



Traditional laminated materials
(less recyclable)

MONO material packaging
(easier to recycle)

PE

Polyethylene

- Flexible & durable
- Excellent sealability
- Widely used for food, non-food and industrial packaging

PP

Polypropylene

- Higher heat resistance
- Better stiffness & clarity
- Ideal for premium products and high-performance packaging

Why Mono Material Matters

Recyclable Design
Simpler recycling process for a circular economy.

Reduced Plastic Waste
Less material complexity, less environmental burden.

Carbon Footprint Reduction
Mono material packaging helps lower carbon emissions.

Regulatory Compliance
Compliance with Global Standards

Sustainable Living
Small changes make a big difference.

Sustainable Packaging for a Brighter Tomorrow

At Threestone, sustainability is more than material — it's smarter solutions. Together, we create packaging for people, products, and a better future.

Let's Build More Sustainable Packaging
